

# Adopt-A-Center Program

## Want to get involved?

We invite you to tour one of our early care and Kindergarten readiness education centers and consider our Adopt-A-Center Program! On a daily basis, we care for more than 595 at-risk children through our seven centers, providing quality, educational child care at little or no cost to their families. By adopting a center, you agree to assist ChildCareGroup staff in preparing children for success.

## How do I Adopt-A-Center?

There are several options available, and we will speak with you individually and tailor this opportunity to meet your needs. Suggestions include:

- Volunteer at your adopted Center once per month.
- Support your chosen Center financially with an annual contribution to help purchase classroom supplies and pay teacher salaries.
- Organize a holiday party and toy drive for your adopted Center.
- Other activities as chosen by organization and adopted Center.

## Long-Term Impact

When disadvantaged children start Kindergarten at a level behind their middle class peers, they rarely catch up in school. With the help of our supporters, ChildCareGroup provides the highest quality early care and school readiness education to children living in poverty to prepare them for success in school and in life.

## We take pride in recognizing our faithful volunteer and donor partners through a variety of methods:

- CCG's annual report
- Press releases to traditional media sources
- CCG's website and social media, such as Facebook, Twitter, and the CCG blog
- Plaque recognition at our Centers
- Invitations to CCG events and Corporate and Community team-building opportunities
- Preferred access to special volunteer projects as they become available

To adopt, contact Amanda Finney, [afinney@ccgroup.org](mailto:afinney@ccgroup.org)
